Scarlet Trumpet Vine

"Beauty at its Best" might well be used in describing this very popular evergreen vine. The best large leaf cuttings are always selected for propagation. This vine gives a heavy verdant cover and bears large clusters of hugh trumpets four to five inches in length.

Due to their size and striking color combination of bright red and yellow these flowers are outstanding in any setting.

The plants available now are five to six feet in height and very full. Prepare for the heavy demand. Order now . . . don't delay.
